

## SUBJECT INDEX

(V.21, n.1-3)

### **Bariatric Surgery, n.1, 5**

- Bone mineral density
- Body composition
- Vitamin D
- Pre-menopause

### **Biofilm, n.1, 11**

- Volatile oil
- Natural product

### **Medicinal Plant, n.1, 18**

- Extraction methods
- Secondary metabolite
- New drugs

### **Thoracic surgery, n.1, 25**

- Postoperative complications
- Intensive Care Units, Pediatric

### **Laryngeal Neoplasms, n.1, 31**

- Larynx
- Neoplasms
- Times series study

### **Monoclonal antibodies, n.1, 40**

- DENV 4
- prM

### **Infant, Premature, n.1, 46**

- Child Development
- Risk Factors
- Follow-Up Studies
- Healthcare Models

### **Phytotherapy, n.1, 53**

- Hemolytic
- Antihemolytic
- Genotoxic

### **Clinical pharmacy service, n.1, 60**

- Pharmacological treatment
- Hansen's disease
- Thalidomide

### **Feeding, n.1, 67**

- Caries
- Childhood

### **Bee Venoms, n.1, 73**

- Envenomation, n.1, 73
- Public Health, n.1, 73, n.3, 505
- Epidemiology, n.1, 73, n.3, 505

### **Family Health Strategy, n.1,79, n.2, 203, 211**

- Community Health Agents, n.1,79
- Primary Health Care, n.1,79, n.2, 211, 243

### **Hairdresser, n.1, 85**

- Beauty and Aesthetics Centers
- Disease Prevention
- Health promotion

### **Autoimmune thyroiditis, n.1, 94**

- Thyroid peroxidase
- Molecular mimicry
- SARS-CoV-2

### **Dengue, n.1, 98**

- *Aedes aegypti*
- Insecticide Resistance
- Pesticides

### **Cryopreservation, n.1, 117**

- Freeze Drying
- Glycerol
- Wounds
- Allografts

### **Physiotherapy, n.1, 123, n.3, 520**

- International Classification of Disability and Health Functionality, n.1, 123
- Respiratory Therapy, n.1, 123
- Positive-pressure ventilation, n.3, 520
- Postoperative care, n.3, 520
- Thoracic surgery, n.3, 520

### **Antiphospholipid syndrome, n.1, 130**

- Transplacental passage,
- Autoantibodies

### **Dental abrasion, n.1, 134**

- Dental erosion
- Acidity
- Alcoholic beverages
- Diagnosis

- Focal Epithelial Hyperplasia**, n.1,138
- Diagnosis Oral
  - Papillomavirus Infections
- Nutritional commitment**, n.2, 155
- Food intake, n.2, 155
  - Clinical Nutrition, n.2, 155
  - Weight loss, n.2, 155
  - Hospitalization, n.2, 155, n.3, 593, 624
- Fracture**, n.2, 161
- Axis
  - Odontoid process
  - Osteosynthesis
- Skeletal Maturation**, n.2, 172
- Cervical Vertebrae
- Mineralization
- Growth
- Vascular remodeling**, n.2, 180
- Lipids
  - Aorta
  - High-fat diet
  - Rats
- Mouthwashes**, n.2, 187
- Hydrogen Peroxide.
  - Tooth Bleaching Agents
  - Dental caries activity tests
- Pregnancy Period**, n.2, 193
- Coronavirus Infections
  - Health
- Health Education**, n.203
- Maternal and Child Health
  - Health Promotion
- Phytotherapy**, n.2, 211
- Suicide**, n.2, 218
- Times series study
  - Mortality
  - Self mutilation
- Physical activity**, n. 2, 225
- Quality of life, n. 2, 225, n.3, 554
  - Cross-sectional study, n. 2, 225
  - Medical students, n. 2, 225
- Peripheral arterial disease**, n.2, 232
- Ankle-brachial index
  - Chronic renal failure
  - Hemodialysis
- Gallstones**, n.2, 238
- Cholelithiasis
  - Choledocholithiasis
- Child Health** n.2, 243
- Infant Nutrition
  - Exclusive Breast Feeding
  - Weaning
- Meningitis**, n.2, 252
- Vulnerabilities
  - Spatial Analysis
  - Health Services
- Parasitic structures**, n.2, 259
- Vegetables
  - Establishments
  - Contamination
- Anatomy**, n.2, 267
- Embryology
  - Gamification
  - Histology
  - Digital technology
- Contraception**, n.2, 274
- Progestins
  - Estrogens
- Allergy**, n.2, 283
- Cesarean
  - Child
  - Adolescence
- Systematic Review**, n.2, 283
- Meta-analysis
- Dentin**, n.2, 292
- Bone regeneration
  - Biocompatible materials
  - Autologous transplantation
- Juvenile Onset Huntington's Disease**, n.2, 302
- Hereditary Neurodegenerative Diseases
  - Trinucleotide Repeat Expansion
  - Phenotypic Variation
  - Anticipation, Genetic
- Meningitis**, n.3, 505
- Coronavirus Infections**, n.3, 514
- Death
  - Doctors
  - Brazil
- Adverse effects**, n.3, 520

**Skin aging, n.3, 529**

- Skin manifestations
- Skin disease  
Prevalence

**Pandemic, n.3, 535**

- Worker's health
- Professional burnout
- Maternity hospitals

**Malnutrition, n.3, 541**

- Elderly
- Aging
- Nutritional status
- Mini nutritional assessment

**Speech-Language Pathology, n.545**

- Health Universal System
- Stomatognathic System
- Research on Health Services
- Health Audit

**HTLV-1, n.3, 554**

- Scale
- Physical and mental health
- Activities of Daily Living

**Steatohepatitis, n.3, 562**

- Alcohol
- Liver
- Fibrosis

**Single Nucleotide Polymorphism, n.3, 569**

- Genetic Markers
- NELL1

**Sunscreens, n.3, 580**

- Lip Products
- Cosmetics
- Solar Protection Factor
- National Health Surveillance Agency

**Car Accident, n.3,593**

- External Causes  
Morbidity
- Death.

**Caloric Restriction, n.3, 605**

- Cardiometabolic Risk Factors
- Cardiovascular Diseases
- Hypertension
- Obesity

**Root canal filling materials, n.3, 613**

- Root canal obturation
- Root canal sealants
- Canals sealers
- Calcium silicate

**Strok, n,3, 624**

- Cought
- Postural balance

**Dentifrices, n. 3, 629**

- Dental calculus
- Toothbrushing
- Periodontal diseases
- Biological products

**Anxiety, n.3, 637**

- Depression
- Exhaustion
- Mental Health
- PTSD

**Collagen, n.644**

- Wound Healing
- Laser Therapy

**Domestic and Sexual Violence against Women, n.3, 650**

- SARS-CoV-2 Infection.
- Aggression

**Single Nucleotide Polymorphism, n.3, 657**

- Genes
- SEPT7
- FMN1
